PROFESSIONAL SUMMARY

Computer Science and Engineering graduate from Bangladesh Army University of Engineering & Technology (BAUET), with skills in frontend and full-stack web development. Interested in machine learning, medical image analysis, computer vision and web development. Experienced in building web projects using React, Next.js, JavaScript, TypeScript and modern UI frameworks. Familiar with database technologies including MongoDB, MySQL and PostgreSQL with additional academic project experience in computer vision and machine learning.

EDUCATION

Bangladesh Army University of Engineering & Technology (BAUET) — *Natore, Bangladesh*
Bachelor of Science (B.Sc.) in Computer Science and Engineering — *2022-2026*
• CGPA: 3.46/4.00

Madaripur Government College — *Madaripur, Bangladesh*
Higher Secondary Certificate (HSC) — *2017-2019*
• GPA: 4.17/5.00

Donovan Government Girls' High School, Madaripur — *Madaripur, Bangladesh*
Secondary School Certificate (SSC) — *2017-2019*
• GPA: 5.00/5.00

INDUSTRIAL EXPERIENCE

Brain Station 23 — *Dhaka, Bangladesh*
Software Engineer Intern — *July 2025 – August 2025*
• Led a team project to develop a e-commerce platform.
• Contributed to frontend development and collaborated on feature implementation.
• Gained exposure to a professional software development environment.

SELECTED PROJECTS

BazarDor — Bangla Grocery Price Tracker
• Bangla-first grocery price-tracking application designed to display product prices, highlight price changes and support category browsing and market comparison.
• Tools used: Next.js, TypeScript, Tailwind CSS, DaisyUI, Better Auth, PostgreSQL

DevStack — Development Stack Explorer
• Built a component-based web application to present and explore development-stack information.
• Tools used: React, TypeScript, Vite, Tailwind CSS

FitLog — Fitness Tracking Web App
• Developed a web application project while practising page/component organization and user-focused interface development.
• Tools used: Next.js, JavaScript

Crafter's Shelf — Handmade Crafts Marketplace
• Designed a storefront concept for handmade crafts, organizing product categories and presenting products in an e-commerce-style interface.
• Tools used: HTML, CSS, JavaScript, PHP, MySQL

ACADEMIC & TECHNICAL PROJECTS

Brain Tumor Detection from MRI Images
- Explores deep-learning approaches for MRI-based tumor-category classification and tumor-region segmentation.

Traffic Sign Detection and Recognition
- Project focused on computer-vision-based traffic-sign detection and recognition with the intended goal of supporting driver alerts and road-safety awareness.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, TypeScript
Frameworks & Libraries: React, Next.js, Tailwind CSS, DaisyUI
Project Management: Git, GitHub, Vercel, Vite
Database: MongoDB, MySQL, PostgreSQL
Technologies: Machine Learning, Computer Vision, Frontend Development, Component-Based UI Development
Current training: Full-stack web development through Programming Hero
